DETAILED ACTION

Response to Amendment

Examiner acknowledges the reply filed 5/22/2007 in which claims 43-45 and 48 were amended, and new claims 49-54 were added. Currently claims 1-54 are pending for examination in this application, with claims 12-16, 23, 26, 31, 33-34, 36-38, and 45 withdrawn from a previous election restriction (filed 6/09/2006).

Examiner notes that currently claim 45 is mis-identified as amended and presently pending but this claim is currently withdrawn.

Additionally, Examiner requests Applicant state their intentions for the withdrawn claims by either canceling them or noting a case for rejoinder under MPEP 809.02(a) in the next response.

Finally, Examiner requests that a power of attorney be submitted regarding the current prosecuting attorney's, the original oath and declaration does not include the current prosecuting law firm or attorney's that Examiner is in communication with.

Information Disclosure Statement

The information disclosure statement (IDS) that was submitted on 3/09/2007 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner is considering the information disclosure statement.

Specification

The disclosure is objected to because of the following informalities: It is the Examiner's position that Applicant has invoked sixth paragraph, means-plus-function language to define Applicant's invention. Therefore the Examiner requires the Applicant

Art Unit: 3763

to amend the specification pursuant to 37 CFR 1.75(d) and MPEP 608.01(o) to explicitly state, with reference to the terms and phrases of the claim element, what structure, materials, and acts perform the function recited in the claim element. Please note that the MPEP clearly states, "Even if the disclosure implicitly sets forth the structure, materials, or acts corresponding to the means-(or step-) plus-function claim element in compliance with 35 U.S.C. 112, first and second paragraphs, the PTO may still require the applicant to amend the specification pursuant to 37 CFR 1.75(d) and MPEP 608.01(o)...". (Also see **MPEP 2181** (Rev. 1, Feb.2000))

Appropriate correction is required.

The abstract of the disclosure is objected to because that abstract exceeds the 150-word maximum. Correction is required. See MPEP § 608.01(b).

Claim Objections

Claims 27 and 43 are objected to because of the following informalities: It is the Examiner's position that Applicant has evoked sixth paragraph, means-plus-function language to define Applicant's invention. Therefore the Examiner has objected to the claims for the reasons set forth above in the objection to the specification.

Appropriate correction is required.

Allowable Subject Matter

Claims 1-11, 17-22, 24, 25, 27-30, 32, 35, 39-44, 46 and 48-54 are allowed.
